

QTD 2019

Quantum ThermoDynamics Conference

June 23-28, 2019
Espoo, Finland

Topics include theory and experiments of quantum thermodynamics in low temperature electronic circuits, trapped ions, cavity optomechanics, cold gases, NV centers and other platforms.

The annual Quantum Thermodynamics conference following the events in Santa Barbara (2018), Oxford (2017), Erice (2016), Porquerolles (2015), Mallorca (2015), and Berlin (2014).

Venue

Hanasaari Cultural Centre, Espoo, Finland. hanaholmen.fi/en/
